#163,3rd main,Teacher's layout,Mysuru

SKILLS

Frontend:HTML5,CSS,Tailwind,JavaScript

Backend: Nodejs,Express,
REST APIs,POSTMAN

Cloud: Comfortable with
GCP,Kubernetees,Maps API,hosting
remote desktop protocols using CoRD

EDUCATION

B.E Computer Science and Engineering
CGPA:7.0

Sri Jayachamarajendra College of
Engineering

2020-2024

Courses include:

Data Structures(20CS320)
Operating Systems(20CS420)
Computer Networks(20CS520)

Pre University College

BASE PU college

83%

2018-2020

PCMC

KCET Rank:11047

LANGUAGES

English

Hindi

French

PROFILE

I'm currently a student pursuing B.E in CSE, experienced in building web applications utilising popular tech stacks such as MERN and Keen about the field of Cloud and Cybersecurity.

Interested in devising a better problem-solving method for challenging tasks, and learning new technologies and tools if the need arises.

PROJECTS

Hyperlocal-Location based News alert App

TechStack:Typescript,Nextjs,Express,prisma,MongoDB

- A web app that allows you to stay in touch with local events, alerts and news, find out what's happening around you right now
- Utilises Google maps API at real time to fetch the coordinates and form a geofence.
- It has a beautiful Interface and interesting, non dull color coding.
- <https://github.com/yashasbm02/hyperlocal>

Social Media App responsive full stack

TechStack: MERN,redux

- Social media app which is responsive using mern stack
- Beautiful interface with the help of MUI
- Features Registration/login page with functionality such as like,share,post

Medical Pager App using React

TechStack: React js,Node,Stream API,Twilio

- Real time chat messaging app with authentication and sms notifications
- Medical pager is a chat app for doctors and personnels to keep in touch and update each other of their tasks and requirements.
- Use of Steam API,which helps building scalable and custom chat apps

CryptoHub-Crypto news and information app

TechStack:: React js,Redux toolkit,Rapid API

- CryptoHub is an app with in-depth info on Cryptocurrencies,markets,exchanges and popular news.
- Sharpened react skills,Implemented ANT design and charts from chart js
- Fetched data from different sources using RAPID API
